Osteohealth was established in 2005 and has been providing exceptional health care services ever since. We are passionate about people and improving their quality of life. All therapists at Osteohealth are exceptional- it's a prerequisite to work here!

We love communicating and educating our patients about their injuries and how best to manage them and prevent them recurring.

Services we offer:

Osteopathy- All Osteopaths are fully registered and members of Osteopathy Australia.

Physiotherapy- All Physiotherapists are fully registered and members of the APA.

Occupational Therapy- Our Hand Therapist is an Associate Member of AHTA.

Cycling Analysis- A unique and world class approach to analysing cyclists on and off the bike for comfort, injury management and performance.

Seminars- If you want us to talk about back pain, injuries, self management to your staff or clients we are more than happy to do so.

What we do:

A full case history, neurological/musculoskeletal assessment, diagnose, treat the condition and provide home exercise/behaviour modification programs.

We are Workcover, TAC, Motor Accidents Authority, Dept Veterans Affairs approved and able to offer Chronic Disease Management services.
